The Fundamental Computing Group - University of Groningen

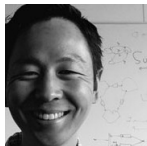

Bliznets

Frumin

Hansen

Jongmans

Otoni

Pérez

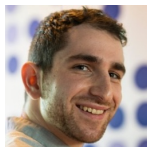

Ramanayake

Part of:

- ▶ The **Faculty of Science and Engineering (FSE)**
- ▶ The **Bernoulli Institute** for Maths, Computer Science, and AI (~ 95 FTE).
- ▶ The **Computer Science department**: Seven research units (~ 34 FTE), including Software Engineering, Information Systems, Distributed Systems.

Our Expertise: Verification, Concurrency, Algorithms, and More

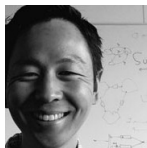

Bliznets

Frumin

Hansen

Jongmans

Otoni

Pérez

Ramanayake

- ▶ Bliznets: Complexity and parameterized algorithms
- ▶ Frumin: Semantics, type theory, mechanized proofs in Rocq
- ▶ Hansen: Modal logic and coalgebra
- ▶ Jongmans: Choreographic programming and multiparty sessions
- ▶ Otoni: Automated reasoning and verified distributed algorithms
- ▶ Pérez: Concurrency theory and type systems
- ▶ Ramanayake: Proof theory for non-classical logics

Expectations for Today

- ▶ Get to know each other, and our work!

Expectations for Today

- ▶ Get to know each other, and our work!
Identify areas of mutual interest and complementary research
- ▶ Groningen and Oldenburg are strategic partners.
Can we use existing bilateral mechanisms for joint (funded) collaborations?
- ▶ Beyond funding, hopefully the start of regular exchanges in both directions!

Tentative Program

- ▶ 10:30 - 11:00: arrival, with coffee
- ▶ 11:00 - 11:20: introduction / discussion on goals for the day
- ▶ 11:20 - 11:40: short talk 1
- ▶ 11:40 - 12:00: short talk 2
- ▶ 12:00 - 12:30: discussion
- ▶ 12:30 - 13:30: lunch (at Bernoulliborg, ground floor)
- ▶ 13:30 - 14:00: coffee / tea
- ▶ 14:00 - 14:20: short talk 3
- ▶ 14:20 - 14:40: short talk 4
- ▶ 14:40 - 15:00: short talk 5
- ▶ 15:00 - 15:20: short talk 6
- ▶ 15:20 - 15:50: discussion (small groups)
- ▶ 15:50 - 16:30: plenary discussion / closing
